

Dear Parent or Guardian,

What an exciting time for you and your family! Although it can be difficult choosing a quality preschool experience for your child, the Midland County Quality Preschool Partnership wants to help you through the process. The enclosed brochure gives you more information about our Partner preschools. All programs listed are FREE to those who qualify.

Please be careful to complete the entire form. It is very important to include your child's date of birth, gross household income (before taxes), place of residence and program preference so we can determine eligibility. You will be notified by one of the agencies listed below to let you know if your child qualifies for a FREE preschool program.

Please know that this is only an intake form. You will be contacted by one of the Partnership preschools to complete the registration process. Please call our toll free number if you have a question while filling out this form. To make it easier for you to send it back, we are enclosing a self-addressed envelope. We encourage you to send the completed form back as soon as possible.

Thank you for considering us for your child's first school experience.

---

## Why should I send my child to preschool?

Studies have shown that children who attend preschool:

- ✓ Are more likely to succeed in their later school years
- ✓ Develop more positive social skills
- ✓ Become better readers
- ✓ Do better in Math, English & Science

# Midland County Quality Preschool Partners

If you have questions about a specific program, please call the contact person listed beside the preschool of your choice for more information.
